## **Real-Time Collaboration and Communication Now Available on Moovly – Moovly Video Collaborator**

VANCOUVER, CANADA -June 4, 2020 – Moovly Media Inc. ("Moovly" or the "Company") (TSX.V: MVY) (OTC: MVVYF) (FRANKFURT: OPV2) is pleased to announce that the Company has enhanced its existing cloud-based video content creation platform by launching a new live video communications service called the Moovly Video Collaborator ("MVC").

The MVC is a live video communication tool that allows a number of users to interact in real time, offering Moovly group subscribers a live video communication tool for collaboration that is seamlessly integrated into the existing Moovly platform. The MVC includes features like screen sharing, chat and a host of additional options making it easier for Moovly groups to communicate in real time.

In addition to Moovly's own video collaboration tool, Moovly has also added the ability for users to launch their favorite third-party video conferencing tool. Whether you use Zoom (NASDAQ: ZM), Google Meet (NASDAQ: GOOGL), Microsoft Skype (NASDAQ: MSFT) or WebEx (WebX) – you can access your favorite conferencing service easily within Moovly's dashboard.

Brendon Grunewald, President and CEO, commented: "The Moovly Video Collaborator allows our users to work together in real time while creating and sharing Moovly content, something that has become essential to our clients, many of whom don't need a fully-fledged large audience video conferencing tool and the associated extra costs. This thus represents a significant potential saving to our customers."

### **About Moovly:**

Moovly is the leading provider of creative cloud-based tools to tell marketing, communications and training stories using videos and video presentations. Moovly's advanced Studio Editor with millions of assets seamlessly integrated (via partnerships with Getty Images & Storyblocks) is all you need to make engaging video content to promote, communicate or explain your product, service or message. Moovly's API and Automator technologies allow third parties to automate parts or all of the content creation process, including mass video customization, personalized videos (video version of mail merge), automatic content creation or updating by connecting data sources. With clients including users from over 300 of the Fortune 500, small businesses, freelancers and Ivy league universities, Moovly is an intuitive, cost effective choice for DIY creation of engaging video-based content.

#### Reader Advisory

*This press release contains forward-looking statements and forward-looking information within the meaning of applicable securities laws. The use of any of the words "expect", "anticipate", "continue", "estimate", "objective", "ongoing", "may", "will", "project", "should", "believe", "plans", "intends" and similar expressions are intended to identify forward-looking information or statements. More particularly and without limitation, this news release contains forward looking statements and information with respect to Moovly's future business plans and the expected benefits of its products. The forward-looking statements and information are based on certain key expectations and assumptions made by the Company. Although the Company believes that the expectations and assumptions on which such forward-looking statements and information are based are reasonable, undue reliance should not be placed on the forward-looking statements and information because the Company can give no assurance that they will prove to be correct.*

*By its nature, such forward-looking information is subject to various risks and uncertainties, which could cause the actual results and expectations to differ materially from the anticipated results or expectations expressed. These risks and uncertainties include, but are not limited to, Moovly's inability to continue to commercialize its products or demand for its products decreases or disappears. Other risk factors are set forth in detail in the Company's Management Information Circular dated March 31, 2020 which is available for review under the Company's corporate profile at [www.sedar.com](http://www.sedar.com). Some other risks and factors that could cause the results to differ materially from those expressed in the forward-looking information also include, but are not limited to: general economic conditions in Canada, the United States and globally; industry conditions, unanticipated operating events; failure to obtain any necessary third party consents and approvals, if and when required; the availability of capital on acceptable terms; the need to obtain required approvals from regulatory authorities; stock market volatility; competition for, among other things, capital and skilled personnel; changes in tax laws; and the other factors. Readers are cautioned that this list of risk factors should not be construed as exhaustive.*

*The forward-looking information contained in this news release is expressly qualified by this cautionary statement. Readers are cautioned not to place undue reliance on this forward-looking information, which is given as of the date hereof, and to not use such forward-looking information for anything other than its intended purpose. The Company undertakes no obligation to update publicly or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable law.*
